

TEQIP Summer Internship and Visiting Researcher program

1-30 June 2018

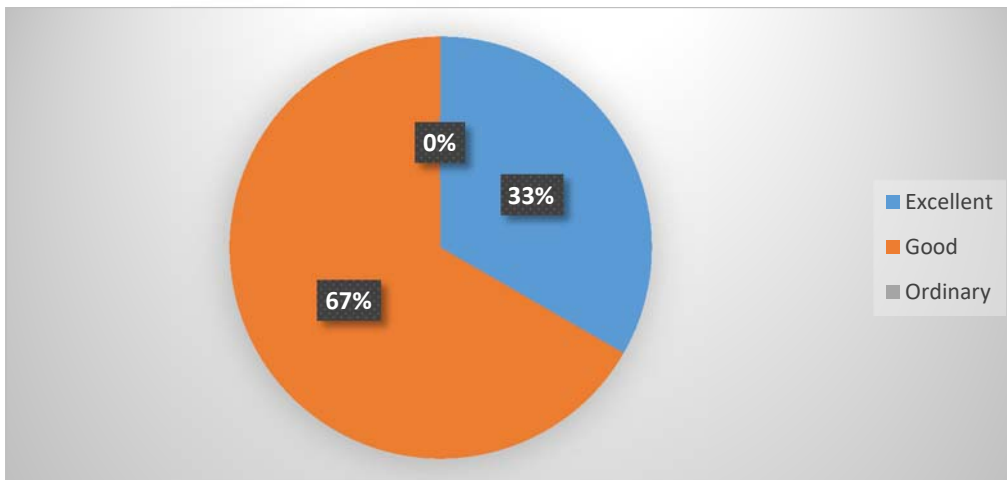

Invent Program Student Feedback

Workshop

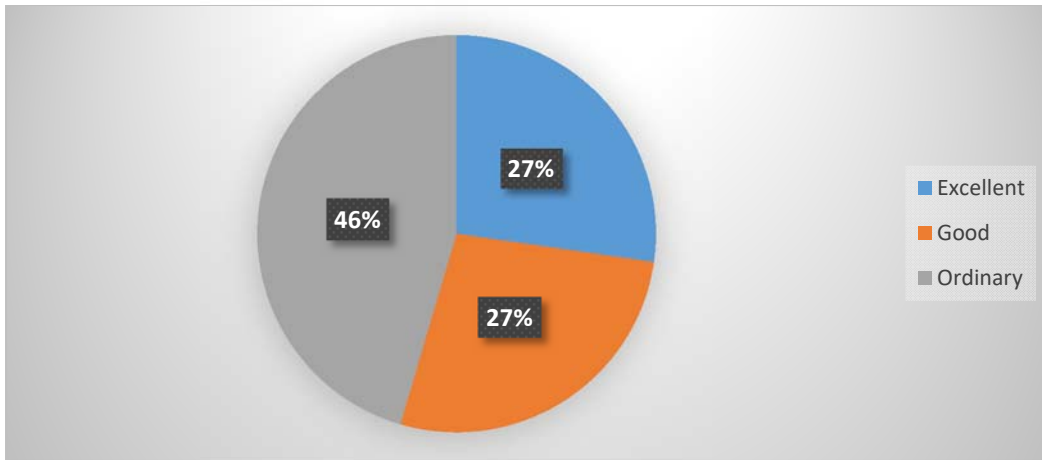

1. Clarity of communication about workshop?

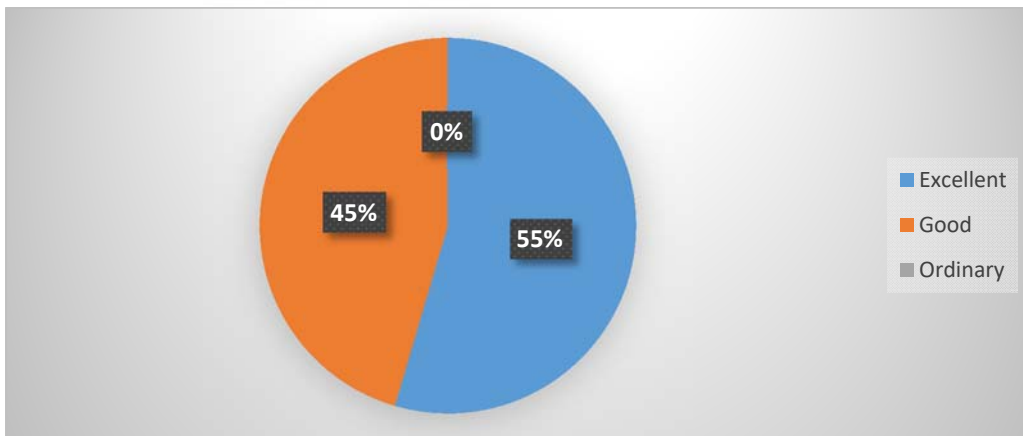

2. Organization of the sessions

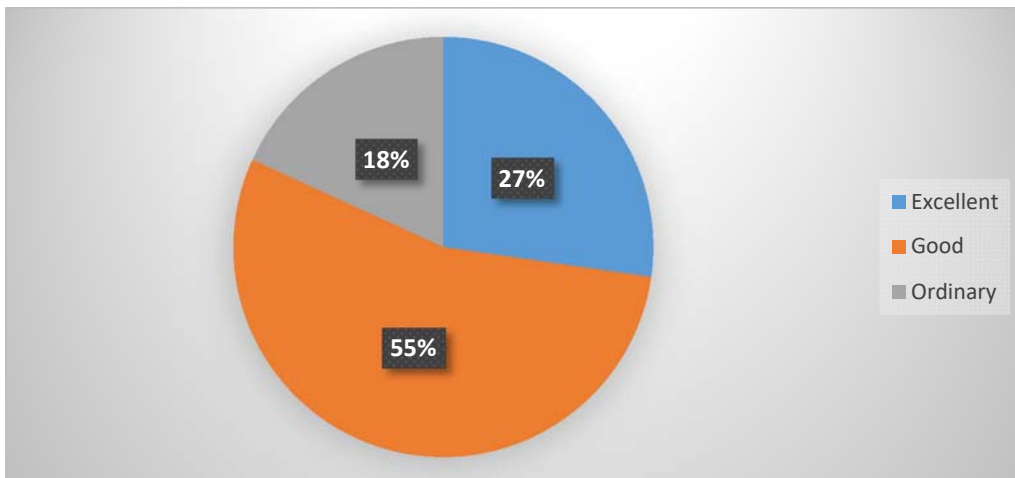

3. Quality of lectures?

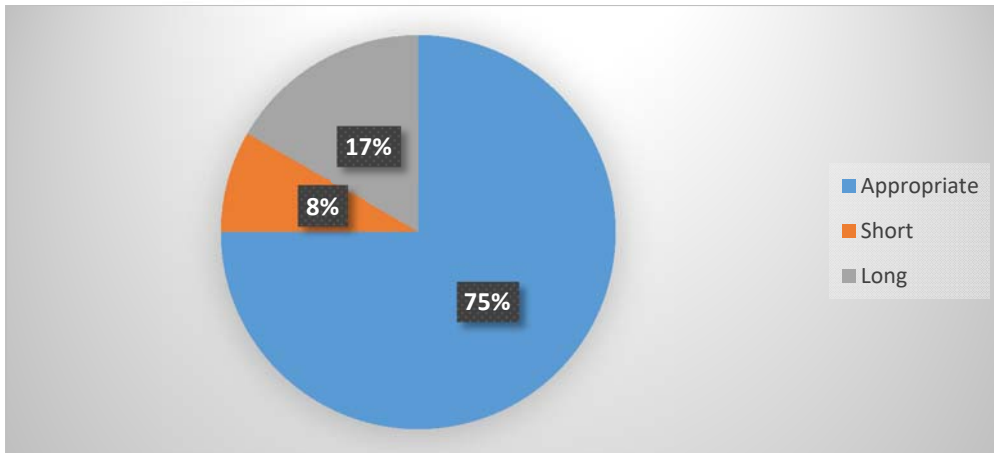

4. Effectiveness of discussions

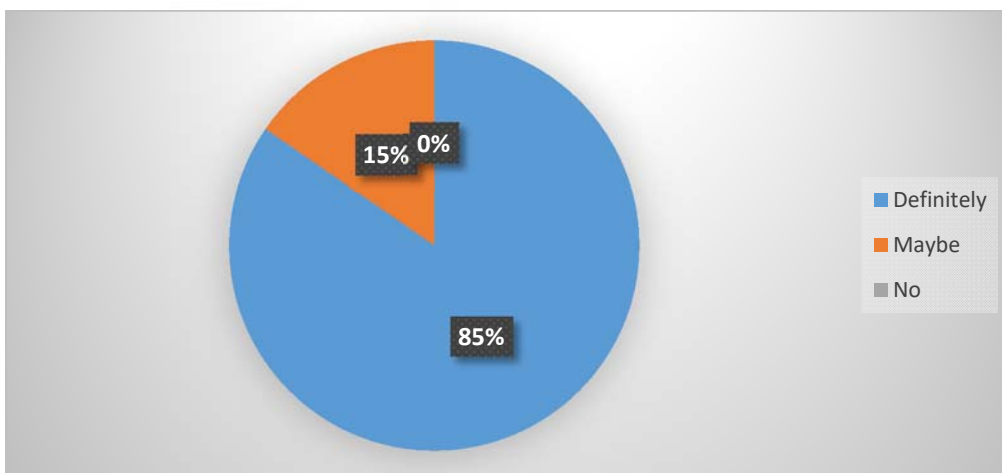

5. Effectiveness of learning experience

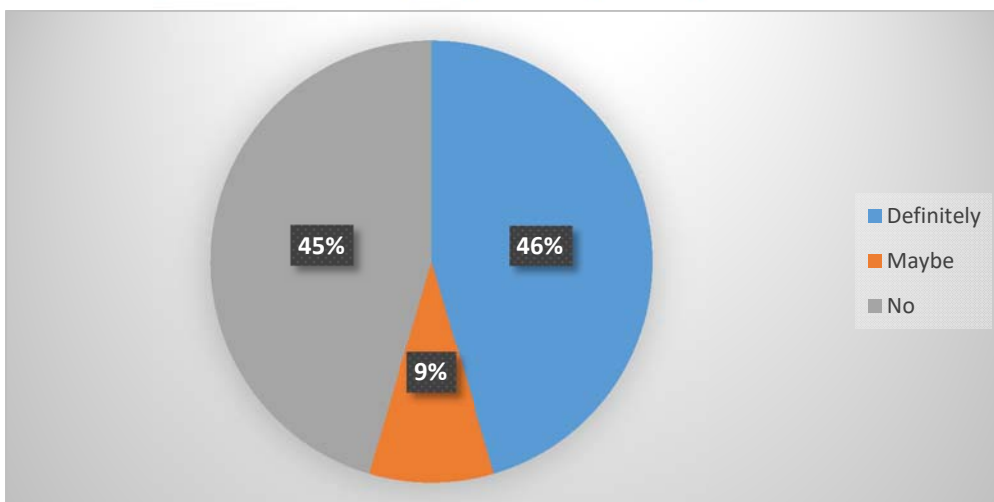

6. Duration of workshop

7. Would you like to have more such sessions?

8. Would you like e-lectures by experts on special topics?

9. Suggest specific topic that you would like additional expert lectures on

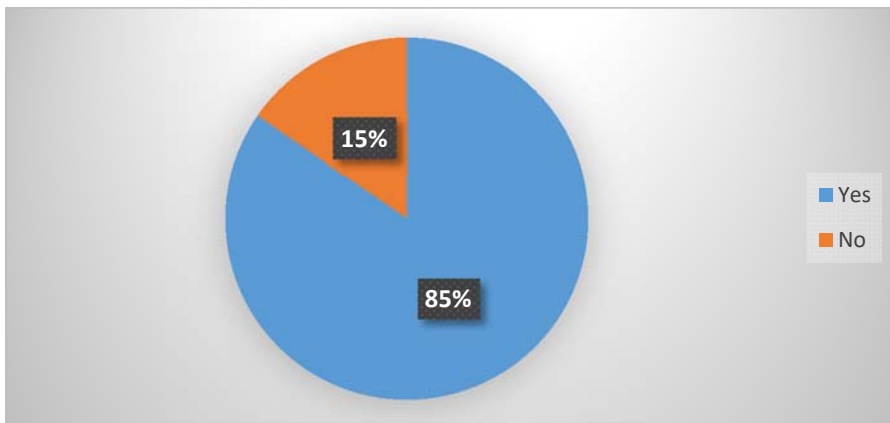

- If it is possible then I prefer lectures on programming and loading
- Topics Like AI , ML & deep learning
- I would like additional expert lectures on android app development machine learning and internet of things
- I would like additional expert lectures on wireless system communication
- AUTOCAD, 3-D Printing , Robotics and Automation
- Website development, java based projects, adj. Java projects, app development, python programming
- Compiler design machine learning artificial intelligence, machine learning computer vision

10. Additional Suggestions

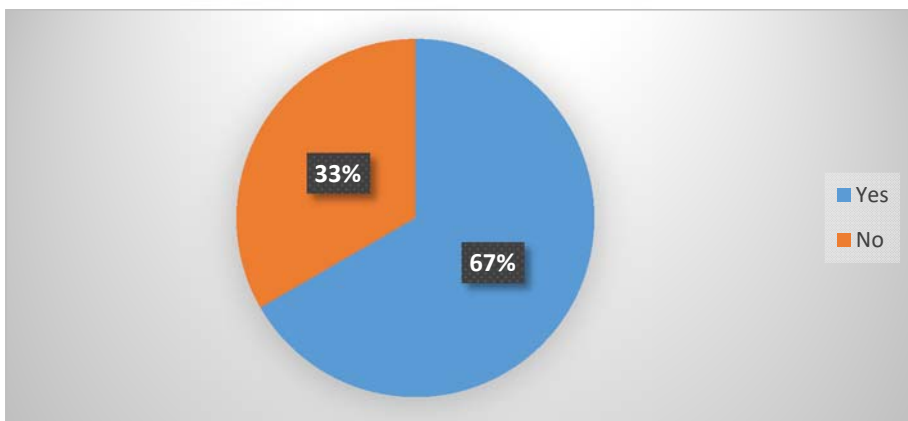

- Organize some workshop for loading and comparative programming
- The workshop was good and I intended to attend more workshop like it
- This internship was very satisfactory and wants some implementation in it. Like some expert for helping in any project.
- I would like also additional expert lectures on mobile communication
- TEQIP IITK should directly give notification to our e-mail ID if there is any short term course/ program for us in future.
- All the facilities and options are provided to intern are very great and if we get job opportunities and placements then it will be more beneficial to internees.
- It will be useful if we connect with TEQIP directly or online. Not only we but also our college students can get benefits if it happens.

Learning

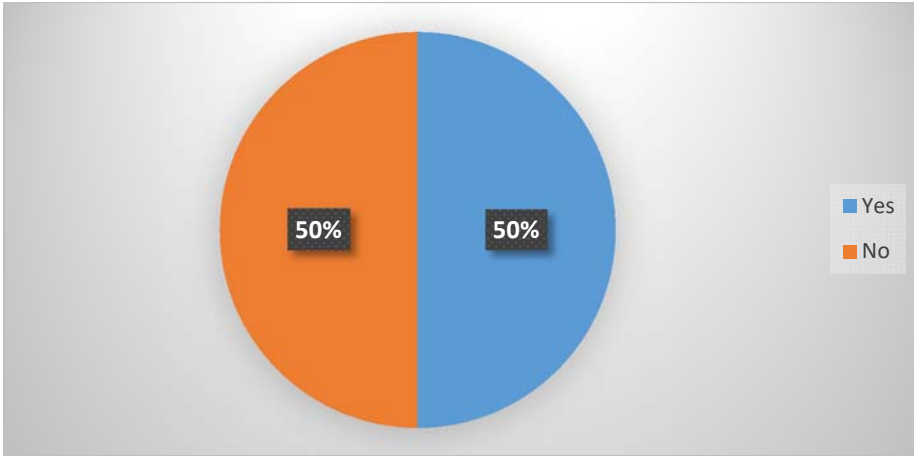

1. Do you get enough class projects?

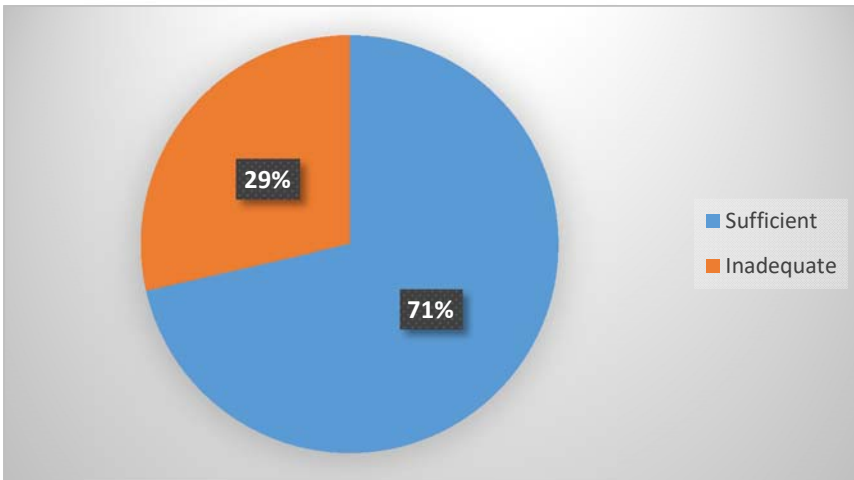

2. Is the learning adequate?

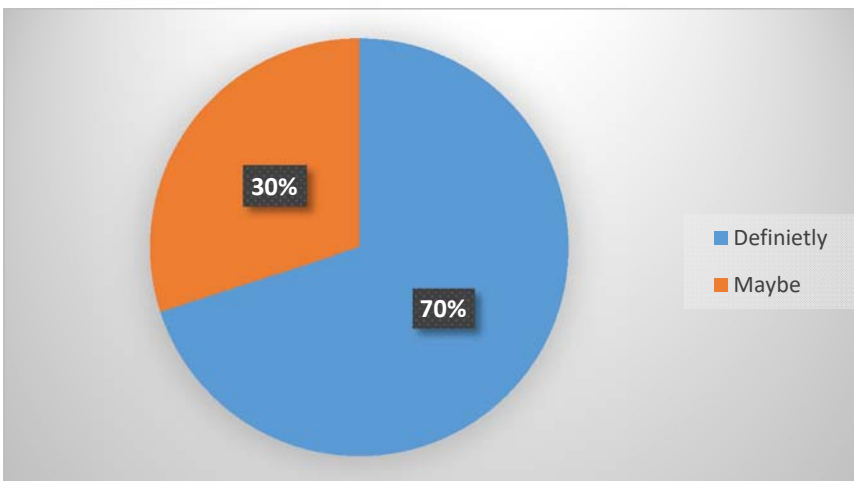

3. Do you have sufficient resources for laboratory courses?

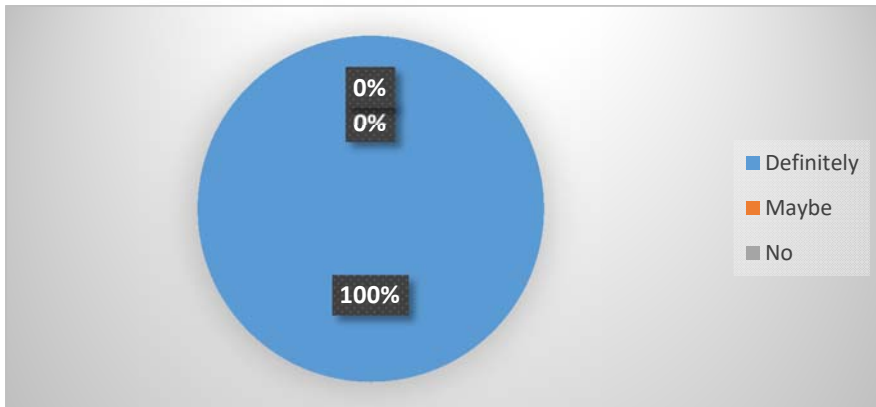

4. Is the library/journal/e-connection support adequate?

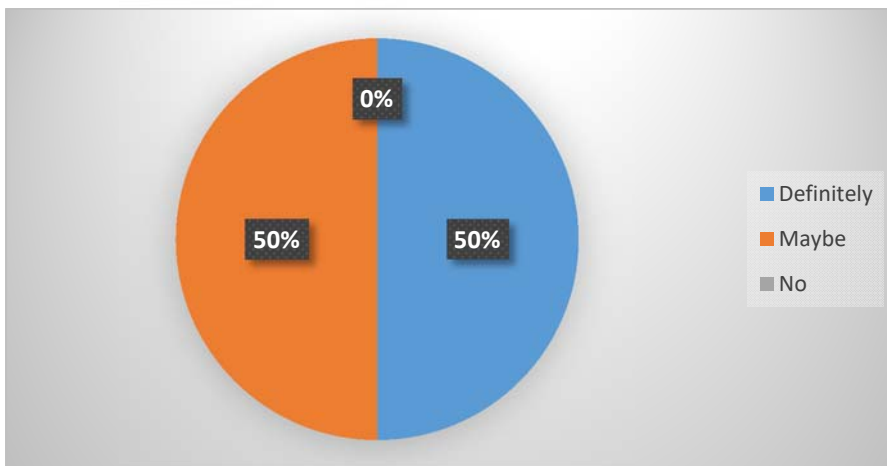

5. Would you like to have common (TEQIP) repository of course material?

6. Would you like to visit IITK to attend specialized courses?

7. Would you like MOOCS/e-courses based courses?

8. What is your area of specialization?

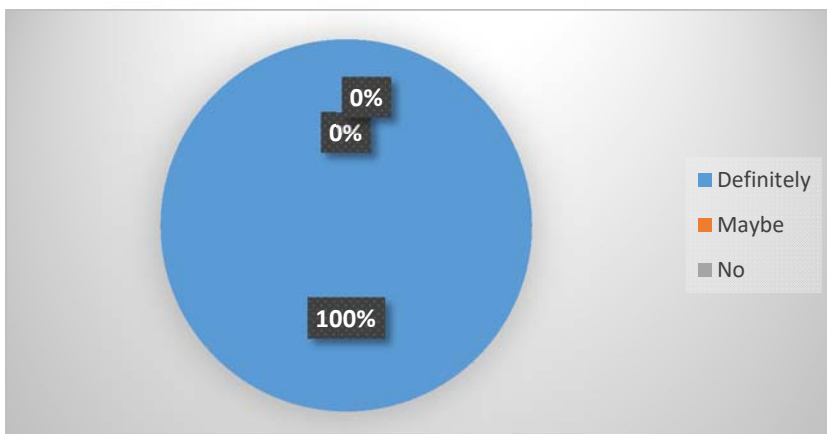

- Web technology & programming
- Networking
- AUTOCAD, Robotics & automation
- Computer science engineering
- Internet of thing (IoT)

9. How can TEQIP help improve your learning?

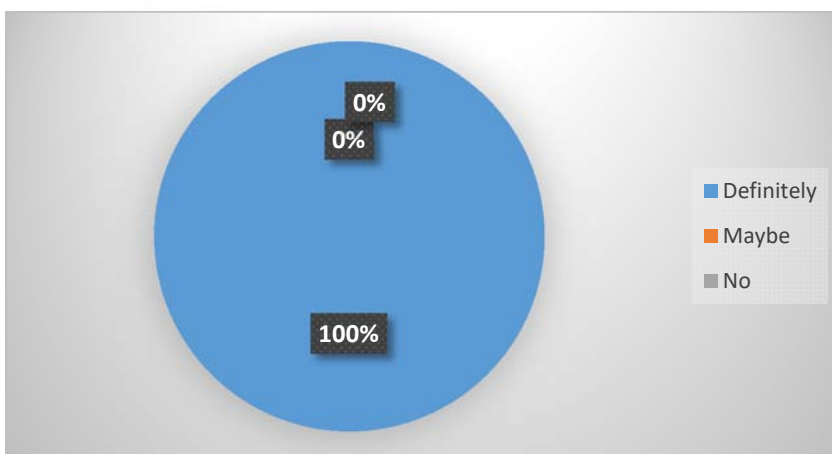

- To organize the workshop and lectures with same time interval
- TEQIP help me by giving all facility and give project to complete it in some period
- It provides us various materials and other guidance regarding to our project
- TEQIP help me by giving all facility and give project to complete it is some period
- By short term course for different topics
- TEQIP can arrange internship for us in abroad
- By providing lectures opportunities and plat form so that we can development
- By organizing such session in which I participated, so that I can get more and more knowledge in the field of technical education also by providing study material

Research

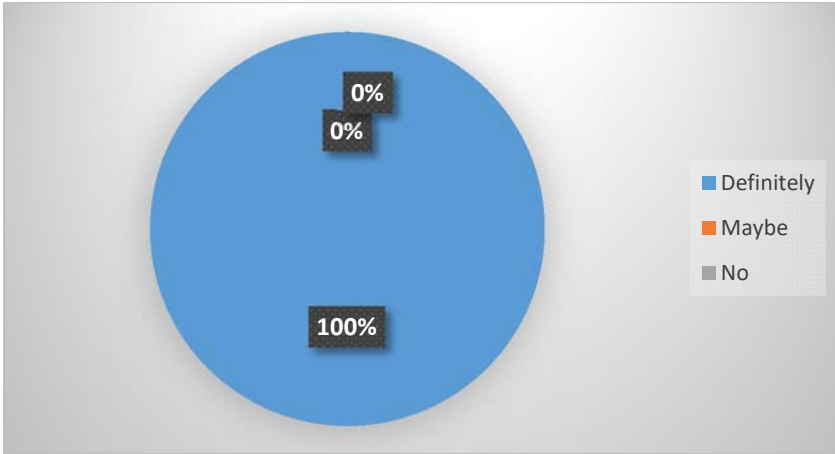

1. Would you like to visit an IIT for short visit/internship/post-doctoral stint, if offered (via TEQIP)

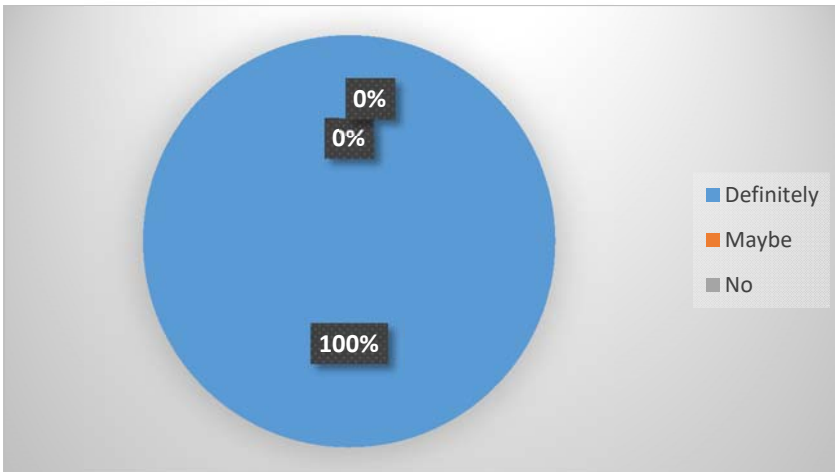

2. Would you like to share/use research infrastructure at IITK, if made available?

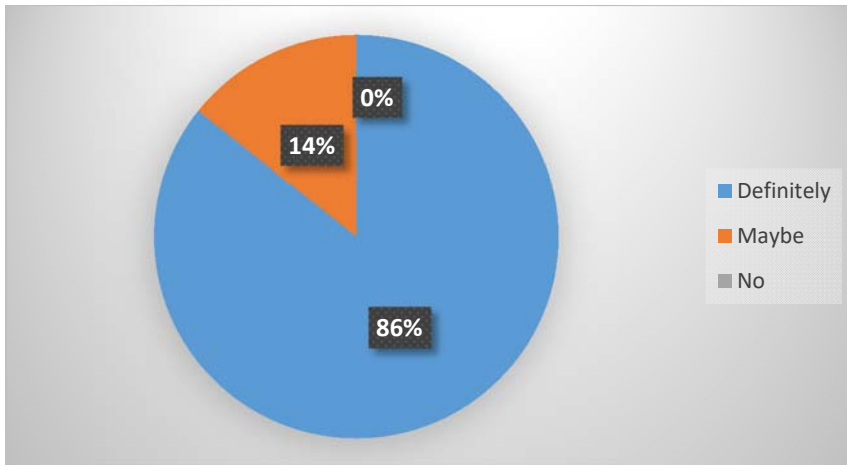

3. Would you like to conduct collaborative research with IITK faculty?

4. Would you like lectures by experts (Indian and international) on niche research areas/topics?

5. Do you want special-topic conferences?

6. How can TEQIP improve your research?

- TEQIP help me to improve my research by giving a better surrounding with the best students and facilities for help in any type of problem
- TEQIP help me to improve my research by giving better surroundings with the best students and facilities for help in any type of problem.
- TEQIP should give us opportunity to go abroad to learn and do research activity
